

CALIFORNIA CIVIC LEARNING SUMMIT

Edison and Bullard High School Students inside the State Capitol after they presented at the Civic Learning Summit

We had the opportunity to take 10 Fresno Unified High School students to the first California Civic Learning Summit at the California Museum in Sacramento CA on Tuesday November 15th. These students were invited to present their Civic Learning Projects and they did such an amazing job. This is an example of students using authentic youth voice in a powerful way. Sunnyside Highschool presented their project on the Peace Mural at Terronez middle school as a working mural to combat bullying at their school and Edison, and Bullard HS students discussed a racial incident at Bullard HS and the steps they took to advocate for change. Students also had the opportunity to tour the state capitol and Assemblyman Jim Patterson's office. Thank you to our sponsors and Jim Patterson for making this possible.

Students pose for a picture inside Assemblyman Jim Patterson's office.
